# THE IMAGE MAKER

## What do you want to get out of this book?

Ask yourself this question. What are you looking for? What do you think studying this information will do for you?

What do you think the biggest stumbling block is for people getting what they want? What is YOUR biggest stumbling block?

Last chapter we established just how much money you need in order to live the life that you want. This is very important — remember, we are dealing with the subconscious mind and it can only accept those thoughts and images that you ALLOW.

That is why you must ALLOW yourself to ask yourself what you truly want. You can only have what you are consciously aware of. If you can't picture it, then you can't have it. It's that simple.

## Change the Image.

Bob highly suggests that you read each chapter in this book multiple times for the life-

changing concepts to sink in for the highest benefit to you and your life.

Bob gives an example of a 65-year-old man who had just come to understand the image-making concept. Let it sink in. Really study it. Let's build a deeper awareness of it.

We are talking about money and changing our results with respect to it. But, to change the results, you must change the image.

## You are an Image Maker.

Understand that everyone, everyday uses the image-making concept. They just might not be aware of it. Think about this: you are creating

your life every second of everyday with the thoughts that you think. It would greatly benefit you to think positive things about yourself and your future.

Bob uses the example of building the first chair. The point of this example is that everything in life, from the creation of a chair, to flying to Mars, to making more money begins with a thought in someone's mind. The thought creates a vision — an image.

You are an Image Maker.

As Bob says on the top of page 53, “Realize now, that you too are the ‘mental architect’ of your own destiny.”

## Persistence

What is an example of an accomplishment that came to you because you were persistent?

Where is there an area in your life that you could apply persistence to reach your objective? Is there a price for success, and are you willing to pay the price?

Persist in visualizing your dream. When you visualize, be sure you are picturing yourself in the present tense, as though you have already reached it. You have to build the image in your mind of the way you want to be and let that control you — act like the person you want to become.

As Goethe said, “Before you can do something, you first must be something.”

## Exercise

Write “I am so happy and grateful now that...” and write out your image in detail. What does your life look like with your goal attained? Take time to do this. Start now. Start where you are.

*You are a  
Mind First.*

Mind First

Bob Proctor uses a Stick Person to help people understand how the pieces of the mind work together.

**C = Conscious Mind**  
 This is the part of the mind that has control over what thoughts you think.

**S = Subconscious Mind**  
 This part of the mind has to accept every thought that the conscious mind chooses to accept. This is where the programs and paradigms live.

**B = Body**  
 The body is an instrument of the mind. The body's habits and behavior are controlled by the programs stored in the subconscious mind.
